Case# 10-00320-16-CR-W-DGK

Administrative Notice For Lawful Request

To all agents and officers of the United States District Court;
The United States District Court, Western District of Missouri. I
am requesting to obtain from your office a written statement as to
what Articles of the United States Constitution were used to create
the Court. Will you please respond in writing to my request? It
has been clearly stated in statute law including Title 28 U.S.C.
that established that "court" does not refer to an Article III
court of the United States Constitution and therefore the court
"cannot" be ordained and established under Article III. I must obtain
a statement from you as to which Article of the United States
Constitution was used to establish the court. I would also request
a description of geographical boundaries of the Judicial District.
With this request I also need a copy of the jury service and selection
plan approved by the Appeals Court since the internet is not accessible
to me. These requests will further prove for me that this Court was
created pursuant to Article I of the United States Constitution and
therefore, the Court is limited to territorial jurisdiction consisting
of the lands and improvements over which the Government of the United
States has exclusive jurisdiction. The purpose of this request is
to alert you to the fact that the United States District Court,
District of Western Missouri has no Article III Judicial Power!

of the United States District Court For The Western District Of

the year of 2011.
