

Case # 10-00320-07-CR-W-DGK
6-10-12

this may concern My name is Benito
Gonzalez I am writing to the courts to ask
for help. I have written the marshalls office,
I have also asked my attorney for help, and
now I'm asking you to please help me, I have
asked to be transfered to a facility with
a medical staff. I am currently in Laffayette
County Jail in federal custody. I was in a car
accident in 2010 coming back from court
(we hit a cow on the highway) and have been
having back pains along with others in wrist
and elbow every since. My last letter I sent
finally got the deputies to take me for x-rays
after a year and from my understanding an
Officer Cox said I refused my first appointment
for x-rays wich I never did. So since my
x-rays I have still not actually seen the doctor.
I have put in multiple medical request for
this among other things. From my experience
here things are only getting worse. I also
tried to declaire a medical emergency not to
long ago and after 4 days of not being
able to eat or drink due to swollen glands
I was seen by a doctor, but when I told the
deputy (I believe burnette) what was wrong

with me he stated "as long as I was breathing its not a medical emergency." I informed my attorney (David Johnson) of all this he said he filed a motion pertaining this matter. So I am writing now to ask the courts to please help me. I would appreciate if the courts could take the time for a hearing to order for me to be transfer to a facility with a medical staff to assist me in my medical needs. With all respect please grant me this hearing or request.

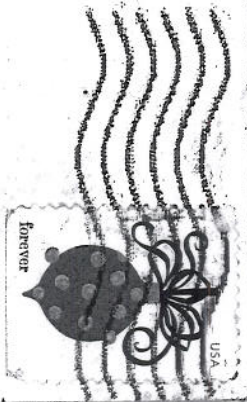

Sincerely,
Benito Gutierrez
