

I Just got done with the letter to Judge Mr. Maughmer. requesting help. for someone who has done this Job for so many years, you know what your doing. but if you can't help me then there has got to be someone who is willing to. I feel your dropping the ball Now like this memo you said your going to write and then after you got the information you don't want to write it. you have me questioning what you have done with the information I sent to you. I don't think you did the memo.

I request to see the Judge Mr Maughmer. there is no need to try tell what you can do if your not doing the eazy stuff. you can't even get the address book.

and I never got the copy of the face sheet page I sent to you. but then I know your Just dropping the ball to get off my case. I don't want you talking to anyone on my behalf.

did for me.

thank you for what you have

Take care
Danny
