

I challenge the Jurisdiction of the prosecutor to charge me with these crimes in side of the state of missouri.

The Law requirements in 40 U.S.C.S 255 are clear and, I request the court as an "independent" Third party to order, the prosecutor to produce documents as required by the law mentioned above.

If the court ignores the challenge today, I can appeal tomorrow, to a higher court.

If the prosecutor can not produce the proof, I demand that the charges be dropped!
