Fernando J. Gaitan Jr., Chief District Judge

Dear Judge Gaitan:

My name is Jason Ayers, I own a small business here in the state of Missouri. I am writing you this letter to let you know my thoughts of Delbert Roberson.

I worked with Delbert for around five years. During that time Delbert was always professional and treated me with dignity and respect. He was someone I could count on when I needed something done. I knew that Delbert would not only get the job done but do it well. Not only did I spend time with Delbert during work, but he did spend time at my house for Fantasy Football. He was always respectful to my home and my kids.

I believe Delbert is a good person that found himself hanging around the wrong people. I am willing to offer Delbert a position with my company. I am also willing to mentor Delbert and assist him with being a solid citizen in the community. Please consider leniency with his sentence. I believe with a second chance you will see Delbert be a humble family man that only wants to provide for his family.

Sincerely,

Jason Ayers
